DIPLOMADO EN EDUCATIONAL LEADERSHIP: ALIGNING THEORY AND PRACTICE IN THE FOREIGN LANGUAGE CLASSROOM

JUSTIFICACIÓN

En tiempos de la globalización y los tratados de libre comercio, las instituciones educativas colombianas están llamadas a ofrecer a sus usuarios los idiomas extranjeros como herramienta de primer orden para responder a las exigencias de la comunicación y la cooperación internacional. La pertinencia de este curso de diplomado reside en su naturaleza teleológica y participativa. El componente de liderazgo imprime al curso un carácter visionario, colaborativo y de sinergia potencial en el seno de la comunidad educativa, en la institución y el aula de clases. En este sentido, cualquier propuesta de innovación curricular tendiente al desarrollo de habilidades en una lengua extranjera necesita de una actitud de liderazgo y de evidente profesionalismo por parte de los profesionales que sirven el área de idiomas extranjeros. Con la formación en enfoques metodológicos modernos y el desarrollo de habilidades de liderazgo en los docentes se garantiza el éxito de la enseñanza y las evidencias de aprendizaje en los niños y niñas que buscan su desarrollo personal y académico en las escuelas y colegios de Montería y la Región

OBJETIVO GENERAL (CORE COURSE COMPETENCES).

Teacher-leaders will be able to:

- Demonstrate an understanding of a set of concepts related to educational leadership and curriculum leadership.
- Incorporate strategies to monitor instructional processes and bring about change.
- Demonstrate an understanding of curriculum leaders' roles as providers of curriculum alignment and teacher professional development.
- Demonstrate an understanding of the need to develop educational practices conducive to student achievement and personal growth.
- Demonstrate leadership skills in planning and implementing teaching, and assessing student learning.
- Value skills across the curriculum and classroom research as alternative strategies for professional development and a different perspective on curriculum change and innovation.
